

Weekly Report

09/07/2015 - 09/13/2015

Jing XIA

September 13, 2015

1 Summary

This week I mainly focus on the DataScanner project.

2 Projects

2.1 Project 1 - DataScanner1

- I asked Fangzhou to help me with a pivot study, and fixed some minor issues. I've started the user study and collected 4 results.
- For the visualization part, I add a slider on the parallel coordinates of the relation views. It took me two days to implement the interaction on canvas though.
- For the paper writing part, I've completed the algorithm section. According to the review comments, I add three paragraphs of design rationale: two for view matching, one for local view relation computation. I also fixed other minor issues mentioned in the review.

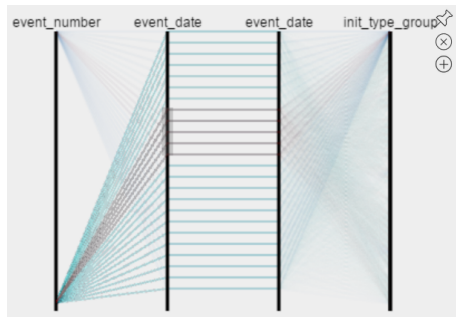

Figure 1: The slider on parallel coordinates.

3 Paper Reading and Miscellaneous

-

4 To Do List

1. Go on with DataScanner user study
2. DataScanner paper writing: case and visualization.
